

# Leisuredeck

THE SUSTAINABLE DECKING SYSTEM

15 YEAR WARRANTY

The obvious  
decking system  
for your family

# The best environmentally friendly building product to arrive in New Zealand

- Made from 100% recycled plastic and wood fibre materials;
- It takes zero deforestation to produce Leisuredeck;
- It will not split, splinter, warp or decay;
- It is vermin proof;
- No undesirable treatments required;
- Mould and Mildew resistant;
- Virtually no on going maintenance;
- Installer does not need to pre-drill or counter sink as there are no exposed nails;
- Easily cut with standard saws and tools.

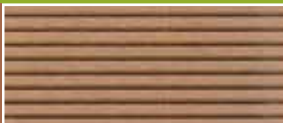

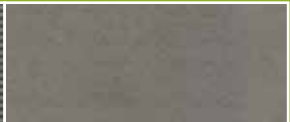

Wood Plastic Composite (WPC) originated in the USA about 15 years ago to offer an environmentally acceptable alternative to hardwood (rainforest) timbers. Its popularity has since grown rapidly not only in the USA but worldwide.
